

Psilocybin Mushroom Image Guide

Copelandia bispora

Copelandia bispora

Color photo of four rare *C. bispora* mushrooms from above.
Photo by John W. Allen.

Copelandia cambodgeniensis

Copelandia cambodgeniensis

Color photo of *C. cambodgeniensis*, the most potent of the Copelandia species which is very common on Oahu Island in Hawaii.
Photo by John W. Allen.

Copelandia tropicalis

Copelandia tropicalis

Color photo of the uncommon *C. tropicalis*.
Photo by John W. Allen.

Gymnopilus spectabilis (Big Laughing Gym)

Gymnopilus spectabilis

Color photo of a small cluster of *G. spectabilis* growing on a stump in Mendocino, CA.

Gymnopilus spectabilis

Color photo of two Laughing Gyms growing out of wood.
Photo by Christopher B.

Gymnopilus spectabilis

Color photo of two freshly picked *G. spectabilis*.
Photo by Christopher B.

Gymnopilus spectabilis

Color photo of two Laughing Gyms growing out of wood. Shows underside of the cap.
Photo by Christopher B.

Gymnopilus spectabilis

Color photo of several Big Laughing Gyms growing on the side of a tree.

Photographer unknown, originally archived by the Altered Consciousness BBS.

[Gymnopilus spectabilis](#)

Color photo of several Big Laughing Gyms with unusually deformed caps, growing at the base of a tree.

Photo from [Mushrooms Demystified](#), by David Arora

[Gymnopilus spectabilis](#)

Color photo of several Big Laughing Gyms growing on bark.

Photo from the National Audubon Society Field Guide to North American Mushrooms.

Panaeolus campanulatus (bell-capped panaeolus)

[Panaeolus campanulatus](#)

Color photo of several bell-shaped panaeolus growing in grass and clovers. Photographer unknown, originally archived by the Altered Consciousness BBS.

[Panaeolus campanulatus](#)

Color photo of several Panaeolus campanulatus growing in grass.

Photographer unknown, originally archived by the Altered Consciousness BBS.

Panaeolus subbalteatus

[Panaeolus subbalteatus](#)

Color photo of 4 specimens.

Photo from [Psilocybin Mushrooms of the World](#).

[Panaeolus subbalteatus](#)

Color photo of several Panaeolus subbalteatus specimens.

Photo by John W. Allen.

[Panaeolus subbalteatus](#)

Color photo of several Panaeolus subbalteatus specimens.

Photo by John W. Allen.

[Panaeolus subbalteatus](#)

Panaeolus subbalteatus (=cinctulus) growing on horse dung. Found in the black forest, Germany (14.10.2000)

Photo by Georg Mueller.

Psilocybe azurescens

[Psilocybe azurescens](#)

Young specimen of Psilocybe azurescens growing on alder wood chips. 20.10.2000 near Stuttgart, Germany.

Photo by Georg Mueller.

[Psilocybe azurescens](#)

Two very young specimens of Psilocybe azurescens on alder wood chips. 20.10.2000, near Stuttgart, Germany.

Photo by Georg Mueller.

[Psilocybe azurescens](#)

Mature specimens of Psilocybe azurescens. 20.10.2000 near Stuttgart,

Germany.
Photo by Georg Mueller.

Psilocybe azurescens

Fairly large ring of azurescens.
Photographer unknown.

Psilocybe baecystis (potent psilocybe)

Psilocybe baecystis

Color photo of four potent psilocybes growing on moss.
Photographer unknown, originally archived by the Altered Consciousness BBS.

Psilocybe baecystis

Color photo of three potent psilocybes lying on a table.
Photographer unknown, originally archived by the Altered Consciousness BBS.

Psilocybe coprophila

Psilocybe coprophila

Color photo of a nice selection of harvested Psilocybe coprophila.
Source unknown.

Psilocybe crobulus

Psilocybe crobulus

Color photo of a nice selection of harvested Psilocybe crobulus.
Source unknown.

Psilocybe cubensis (Cubes)

Psilocybe cubensis

Close-up color photo of a connected pair of dried P. cubensis.
Anonymous Photographer.

Psilocybe cubensis

Color photo of a collection of dried P. cubensis.
Anonymous Photographer.

Psilocybe cubensis

Color photo of a single large somewhat dried P. cubensis cap from the top.
Anonymous Photographer.

Psilocybe cubensis

Color photo of a small collection of large dried P. cubensis, next to a quarter showing relative size.
Photo by Raoul.

Psilocybe cubensis

Color photo of a ten pound bag of dried P. cubensis.
Photo by Raoul.

Psilocybe cubensis

Color photo of a four fresh P. cubensis mushrooms.
Anonymous Photographer.

Psilocybe cubensis

Close-up color photo of two fresh *P. cubensis* mushrooms.
Anonymous Photographer.

[Psilocybe cubensis](#)

Color photo of two *P. cubensis* mushrooms growing in grass.
Photo by Christopher B..

[Psilocybe cubensis](#)

Color photo of several *P. cubensis* picked in Koh, Thailand.
Photo by John W. Allen, used with permission.

[Psilocybe cubensis](#)

Color photo of Thai mushroom vendor holding Giant *Psilocybe cubensis* (Earle) Singer, Koh Samui, Thailand. Photo by John W. Allen, used with permission.

[Psilocybe cubensis](#)

Color photo of 3 specimens held in a hand.
From [Psychedelic Shamanism](#).

[Psilocybe cubensis](#)

Color photo of three *cubensis* mushroom growing on a dung heap.
Photographer unknown, originally archived by the Altered Consciousness BBS.

[Psilocybe cubensis](#)

Color photo of a group of mushrooms growing wild on the edge of a field in Jacksonville, Florida. Largest cap is 5 ½ inches across.
Photo by [Shroom Wizard](#), used with permission.

[Psilocybe cubensis](#)

Color photo of many fruiting pftk substrate cakes.
Photo by The Dogg, used with permission.

[Psilocybe cubensis](#)

Color photo of fruiting pftk substrate cakes.
Photo by The Dogg, used with permission.

[Psilocybe cubensis](#)

2 Color photos of heavily fruiting pftk substrate cakes.
Photo by The Dogg, used with permission.

[Psilocybe cubensis](#)

Large color photo of a pallet of fruiting cakes.
Photo by The Dogg, used with permission.

[Psilocybe cubensis](#)

Color photo of a single heavily fruiting pftk substrate cake.
Photo by The Dogg, used with permission.

[Psilocybe cubensis](#)

Color photo of a clump of giant *Psilocybe cubensis* grown from a strain originally collected in Ban Hua Thanon, Koh Samui, from Southern Thailand.
Photo by John W. Allen, used with permission.

[Psilocybe cubensis Grow Chamber](#)

Color photo of a grow chamber with 3 fruiting cakes. Chamber uses perlite and thermometer/hygrometer.
Photo by Ooz, used by Erowid with permission.

[Psilocybe cubensis Grow Chamber](#)

Color photo of a grow chamber with 3 cakes fruiting with mature mushrooms.

Photo by Ooz, used by Erowid with permission.

Psilocybe cyanescens (Wavy Caps)

Psilocybe cyanescens

Close-up color photo of a collection of dried *P. cyanescens*.
Anonymous Photographer.

Psilocybe cyanescens

Beautiful color photo of a cluster of mature *P. cyanescens* taken in the Black Forest region of Germany's Southwest in Early November.
Photo by [Georg Mueller](#).

Psilocybe cyanescens

Close-up color photo of three *P. cyanescens* taken in the Black Forest region of Germany's Southwest in Early November.
Photo by [Georg Mueller](#).

Psilocybe cyanescens

Color photo of a group of young *P. cyanescens* taken in the Black Forest region of Germany's Southwest in Early November.
Photo by [Georg Mueller](#).

Psilocybe cyanescens

Color photo of a cluster of *P. cyanescens* amidst dry leaves, taken in the Black Forest region of Germany's Southwest in Early November.
Photo by [Georg Mueller](#).

Psilocybe cyanescens

Close-up color photo of two *P. cyanescens* taken in the Black Forest region of Germany's Southwest in Early November.
Photo by [Georg Mueller](#).

Psilocybe cyanescens

[Psilocybe cyanescens](#)

Color photo of wavy caps picked in the wild in northern California, 1/15/98.
Photo by anonymous contributor.

[Psilocybe cyanescens](#)

Color photo of a large clump of wavy caps.
Photographer unknown, originally archived by the Altered Consciousness BBS.

[Psilocybe cyanescens](#)

Color photo of a group of cyanescens on a piece of paper.
Photographer unknown, originally archived by the Altered Consciousness BBS.

Psilocybe hoogshagenii Hein var. *hoogshagenii*

[Psilocybe hoogshagenii](#)

Color photo of *P. hoogshagenii* Heim var. *hoogshagenii* from Mexico.
Photo by Jom Jacobs,

Psilocybe muscorum

[Psilocybe muscorum](#)

Color photo of a nice selection of harvested *Psilocybe muscorum*.
Source unknown.

Psilocybe pelliculosa (Conifer *Psilocybe*)

[Psilocybe pelliculosa](#)

Color photo of a cluster of conifer *psilocybes*.
Photographer unknown, originally archived by the Altered Consciousness BBS.

Psilocybe samuiensis

[Psilocybe samuiensis](#)

Color photo of *Psilocybe samuiensis* Guzmán, Bandala and Allen. From manured soil in a rice paddie. Koh Samui, Thailand.
Photo by [John W. Allen](#), used with permission.

[Psilocybe samuiensis](#)

Color photo of three freshly picked mushrooms. From manured soil in a rice paddie in Koh Samui, Thailand.
Photo by [John W. Allen](#), used with permission.

Psilocybe semilanceata (Liberty Cap)

Psilocybe semilanceata

Color photo of single mushroom.

Photo from the [Dan Lieberman Image Library \[dan@iafrica.com\]](http://dan@iafrica.com), used with permission.

Psilocybe semilanceata

Close-up color photo of a single P. semilanceata taken in the Black Forest region of Germany's Southwest in Early November.

Photo by [Georg Mueller](#).

Psilocybe semilanceata

Color photo of a group of P. semilanceata taken in the Black Forest region of Germany's Southwest in Early November.

Photo by [Georg Mueller](#).

Psilocybe semilanceata

Close-up color photo of a group of P. semilanceata taken in the Black Forest region of Germany's Southwest in Early November.

Psilocybe semilanceata

Color photo of two P. semilanceata taken in the Black Forest region of Germany's Southwest in Early November.

Photo by [Georg Mueller](#).

Psilocybe semilanceata

Psilocybe semilanceata growing in a lawn near the town hall of a small village in Southern Norway. 02.09.2000

Photo by [Georg Mueller](#).

Psilocybe semilanceata

Beautiful color photo of a cluster of 4 picked mushrooms.

Source Unknown.

Psilocybe semilanceata

Color photo of 5 picked mushrooms.

Photographer unknown, originally archived by the Altered Consciousness BBS.

Psilocybe semilanceata

Color photo of a single liberty cap.

Photographer unknown, originally archived by the Altered Consciousness BBS.

Psilocybe semilanceata

Color photo of a group of liberty caps growing in a clump of grass.

Photo from the book "Funghetti", by Lucio Pagani.

Psilocybe semilanceata

Close-up color photo of a group of liberty caps, or Norwegian "spiss fleinsopp" mushrooms.

Photographer and source unknown.

Psilocybe subcubensis

Psilocybe subcubensis Guzman

Color photo of four P. subcubensis Guzman from Koh Samui, Thailand.

Photo by [John W. Allen](#).

[Psilocybe subcubensis](#)

Color photo of two P. subcubensis.

Photo by [John W. Allen](#).

Mushroom Art

[West African Mushroom Figurines](#)

Color photo of four statues. Three are from the private collection of Anubis, and the far left statue is from 'The Way of the Animal Powers' by Joseph Campbell.

Photo by [Anubis](#),

[Two Terra cotta mushroom figurines.](#)

Figurines from A.D. 100 in Mexico. Discovered by Peter T. Furst.

Photo from [Persephone's Quest](#).

[Four Mushroom Stones](#)

1000 B.C. - 500 A.D. from Mexico.

Cultivation

[Psilocybe cubensis](#)

Excellent color movie of P. cubensis growing in a cultivation chamber over a 24 hour period.

Anonymous Photographer.

[Fruiting Mycelium Cakes](#)

Color photo of 3 fruiting mycelium cakes, 41 days after inoculation. Fruited in styrofoam cooler with perlite, a saran wrap lid, and using manual ventilation.

Anonymous Photographer.

[Growing Chamber](#)

Photo of a growing chamber filled with colonized mycelium cakes each sprouting P. cubensis mushrooms...one nearly full sized and many small primordial mushrooms.

Anonymous Photographer.

[Fruiting Mycelium Cake](#)

Photo of a vermiculite cake fully colonized with mycelium...with a single,

large *P. cubensis* growing.
Anonymous Photographer.

[Mycelium Colonizing Jars](#)

Color photo of 6 mycelium colonizing jars, 21 days after inoculation with spores. The jars are in various stages of colonization.

Anonymous Photographer.

[Contaminated Mycelium Cake](#)

Color photo of PF style cake contaminated with brown mold.

Anonymous Photographer.

[Rice / Vermiculite Mycelium Culture](#)

Color photo of a rice / vermiculite mycelium culture beginning to colonize with mycelium. This culture was going to eventually be used in a mycelium slurry.

Photo by St. Anthrope.

[Agar Petry Mycelium Culture](#)

Color photo of a agar petry mycelium culture (*P. cubensis*) beginning to colonize with mycelium.

Photo by St. Anthrope.

[Terrarium](#)

Color photo of a mushroom growing terrarium with various parts labelled.

Anonymous Photographer.
